EDUCATION

University of Massachusetts Amherst — Amherst, MA
Isenberg School of Management
Master of Science in Business Analytics — Candidate, December 2026
- Cumulative GPA 4.0

Salve Regina University — Newport, RI
Bachelor of Science in Finance, Minor in Business Administration — May 2025
- Cumulative GPA 3.87; Magna Cum Laude; Dean's List all semesters

EXPERIENCE

University of Massachusetts Lowell — Lowell, MA
Director of Baseball Data and Analytics — January 2026-Present
- Lead the data function for a Division I program, consolidating data from multiple third-party platforms into consistent internal and opponent research reports
- Compile and maintain datasets and visual performance metrics used by coaching staff for evaluation and planning
- Present findings and recommendations to coaches and players without technical backgrounds

Nashua Silver Knights (Futures League) — Nashua, NH
Baseball Analytics Intern — May 2026-August 2026
- Built and deployed a Python and Streamlit platform that turns Trackman data into pre-game plans, scouting sheets, player reports, and PDF deliverables used by the coaching staff throughout the season
- Built a live in-game decision support tool with a three-tier fallback for opposing pitchers without Trackman history
- Ran Monte Carlo playoff simulations to track the league standings race and drafted pre-game and post-game written reports for the coaching staff
- Served on the league's Trackman Committee, helping grow knowledge of Trackman across clubs and advising on its capabilities and opportunities

Salve Regina Athletics — Newport, RI
Game Management Staff — September 2021-May 2025
- Facilitated game day operations of volleyball, basketball, football, and hockey games, including setup and breakdown of stands and sidelines
- Tracked players' statistics using various scorekeeping techniques for input into the statistics archive; filmed and announced basketball games for live broadcasts

PROJECTS

MLB Player Projection Model | Live 2027 Projections — Python
- Built a multi-year hitter and pitcher projection system with aging from public Statcast and FanGraphs data; beat Marcel in all 18 backtest seasons and on a locked 2026 holdout, and published 2027 projections as a live test

Club Reporting Platform | DiamondIntel Demo — Python, Streamlit
- Built Stuff+ (XGBoost with pitcher-grouped cross-validation), xBA/xwOBA, catcher framing, defensive metrics (outfield OAA, infield ridge logistic model), and empirical Bayes matchup projections

SKILLS & ACTIVITIES

- Python (pandas, scikit-learn, XGBoost), Streamlit, SQL, Trackman, Advanced Excel, Tableau, Git
- Claude, ChatGPT, prompt engineering
- Rapsodo Baseball Pitching Certification; Microsoft Word and PowerPoint Certified
- 2026 SABR Analytics Conference (MLB Sponsored)
- Sigma Beta Delta International Honor Society (top 20% of business students)
- Four-year NCAA Division III varsity baseball player, Salve Regina University
